Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Friday 21 May 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Rain clearing east to leave scattered showers.

Today:
Rain, often heavy, throughout the region in the morning. The rain will gradually head east through the day, resulting in some areas turning drier, but isolated showers, often heavy with risk of thunder, will start forming. Maximum temperature 13 deg C (55 deg F).

Tonight:
The rain will continue clearing east through the night, leaving the region mostly dry but cloudy by morning, with the odd shower. Local frosts possible. Minimum temperature 1 deg C (34 deg F).

Saturday:
Saturday mostly dry but cloudy at first, however some sunny spells will develop but also a scattering of showers. Winds easing but remaining rather cool for this time of year. Maximum temperature 12 deg C (54 deg F).

Outlook for Sunday to Tuesday:
Sunday starting dry with a few coastal showers, before thickening cloud brings more frequent showers and rain, locally heavy. Monday showers, locally heavy with thunder. Tuesday drier and brighter.
